# Welcome To Elmcrest And Sangamon

**DR. A. H. WEILAND**

**T**he breeding program today at Elmcrest is at a high state of production and it is with great reluctance that we part with a large draft of females in the Sangamon District Sale.

It is necessary, however, to greatly reduce the size of the herd to keep it within limits of our labor force and accommodations. Accordingly, on December 9, we will part with a number of grand females straight from the producing herd. Cows like Bapton Augusta Marteta have produced regularly and well for us. We offer them with pride and with every confidence that they will do equally well for you.

Since 1947 when we purchased the International grand champion Kelburn Banker Royal at \$9,200, a succession of great stock bulls have been used at Elmcrest. Next was the \$6,000 Phopachy Huntsman purchased at Perth. Then was the outstanding Leveldale Capitol at \$7,200. The International grand champion Leveldale Princeps cost \$6,700 and was perhaps the best investment we've ever made. Now in service is the International junior champion Elmcrest Diadem.

In addition, choice females have been purchased in Scotland and from select herds in the United States until the Elmcrest foundation is, we are told, a truly powerful one.

It is from these cows and their daughters that we have selected the December 9 sale offering. We offer these cattle with great pride and we anxiously await your visit to Elmcrest. We are joined in this sale by our close friends and fellow members of the Sangamon District Ass'n. No finer group of men exists and we recommend their cattle as we do our own.

We look forward to your visit on sale weekend. We'll all do our best to make it a pleasant and profitable one.

Cordially,  
Dr. Arthur H. Weiland

## 25 STEERS SELL

# Sangamon For More of What You Buy Quality For

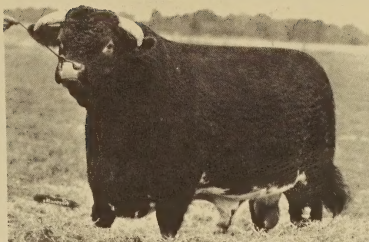

It started 23 years ago when a group of vigorous, young Shorthorn breeders in the rich Sangamon farm district of Illinois joined together in the Sangamon District Shorthorn Ass'n.

The first sales, as would be expected, were primarily local affairs until breeders throughout Illinois, Indiana and Iowa discovered that at Sangamon you buy top quality — the kind usually available only in national sales. Since then the reputation and stature of the sale have grown until cattle have sold to states as far away as Colorado, Texas and South Dakota.

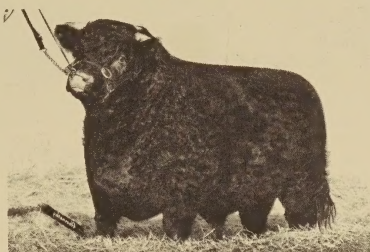

The Sangamon breeders are an active, fun-loving group who have produced more than their share of International champions and other top-sellers throughout the country. You'll find more top-quality herd bulls in service in the Sangamon District of Illinois than any other in the country.

On December 9 these breeders will share their very best with you, lead off by large drafts from Elmcrest and Bill Van Meter. These are the kind that will go out and do for you as they have for so many others in the past.

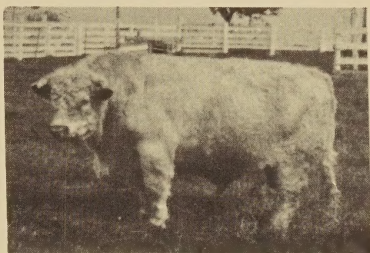

For example, in 1966 Elmcrest Rosewood Peach 3rd by Leveldale Princeps topped the sale to John Shuman, Byers, Colo. After arriving and calving in Colorado, she was officially classified AAA by the American Shorthorn Ass'n. What more proof could you ask for the doing ability of the cattle you can buy at Sangamon?

Leveldale Princeps, the 1959 International grand champion, is still going strong at Elmcrest where he weighs a ton on pasture. He's by the \$35,000 Leveldale Basis and out of Aldie Princess Ciss. A daughter topped the 1966 sale at \$2,500 to John Shuman of Colorado.

Elmcrest Diadem, the 1961 International junior champion, is by the incomparable Calrossie Diadem. He is out of Glamis Mona Crocus that was reserve champion at Perth in the fall of 1959. A daughter sold to Melbourne Farm at \$1,900 and another was reserve champion of the 1966 Land of Lincoln show.

Elmcrest White Eagle is by Leveldale Princeps and out of the dam of Elmcrest Diadem. Junior stock bull at Elmcrest, this big white sire is among the best of the breed.

**PRAIRIE CREEK DIADEM 29th** — This excellent dark red son of Elmcrest Diadem is endowed with bone, muscling, burliness, and a strong masculine head. His dam is a top producing cow at Prairie Creek. She has dropped two productive bull calves that are doing outstanding jobs. A half-brother, P C Mariner, a reserve All-American, by Elmcrest Legend, is siring an exceptional calf crop for Richmond Robison & Sons, Delavan, Ill. A full brother, Prairie Creek Diadem 2nd, is siring great calves for William Van Meter, Elkhart, and the Klokkengas. Females featured in Prairie Creek's 1967 Melbourne consignment were sired by this bull's full brother. We highly endorse this bull as we know he has great breeding potential.

Prairie Creek Diadem 2nd is perhaps the best breeding son of Elmcrest Diadem in service today. His service is a feature of the big consignment from W. H. Van Meter, Elkhart, Ill. Lot 6 is a son.

**BAMBI SILVER KING 7th** — First as junior calf at the Illinois State fair. His dam, a Tucker cow by Leveldale Caesar, gives this calf a big edge as a breeding bull. We have used him liberally.

**Above are members of the great Rosewood Peach family at Elmcrest. They have accounted for Illinois State Fair champions, sale tops and a AAA cow. See them all at Elmcrest on sale day.**

## **Elmcrest: Synonymous With Quality**

There can be little doubt about Elmcrest's pre-eminence among the smaller herds of the nation. For more than 20 years a succession of the breed's best stock bulls have ruled the pastures and the herd has been further strengthened by several importations from Scotland.

Today the quality of the herd and its nation-wide reputation are an established fact. They have exhibited champions at the Illinois State Fair and the International Livestock Exhibition — the year's two biggest Shorthorn shows. Annually their best are saved for the Sangamon District Sale where they are always the tops. In the hands of others their productions do exceptionally well. For example, in the 1966 sale, John Shuman purchased the top-selling female, Elmcrest Rosewood Peach 3rd. This summer, after nursing her Elmcrest Diadem bull calf, she was officially classified AAA by the American Shorthorn Ass'n.

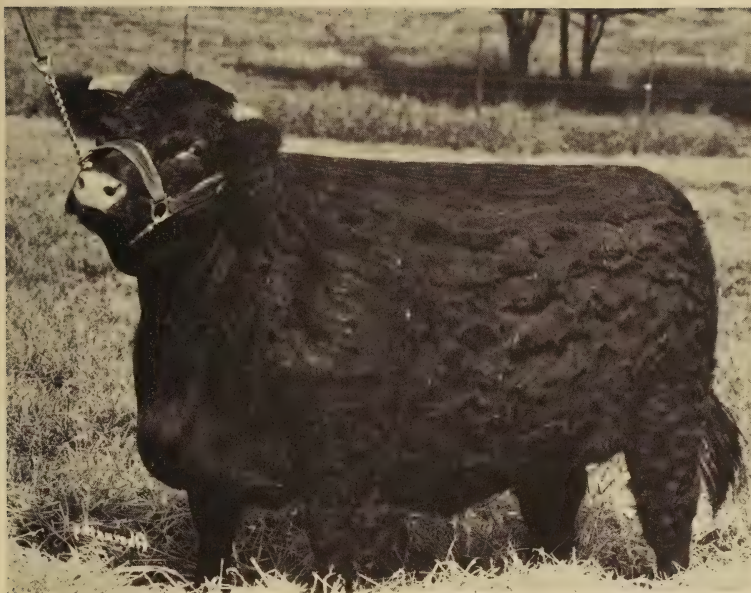

This year Elmcrest sells a large draft of females to somewhat reduce the herd. Here is a top opportunity to buy females straight from the producing herd. Only those with calves at foot or checked safe in calf will be sold. Included are imported females that have produced long and well at Elmcrest.

They are sound individuals with impeccable pedigrees. For the far-sighted Shorthorn or Polled Shorthorn breeder, they present real investments in the future excellence of his own herd.

### **DUTCH-TREAT DINNER DECEMBER 8**

An annual feature of the Sangamon District Shorthorn Ass'n sale is the Dutch-treat dinner the night before. This year it will be at 7 p.m. December 8 at the New Howard Johnson motel at the junction of Stevenson Drive and the old Springfield by-pass. The cost will be five dollars for a steak dinner. Speakers for the evening will be Dr. Robert Ethridge on the latest developments in brucellosis control and Paul Potter of Melbourne Farm on size in Shorthorns. There will be no formal business meeting.

GULSO'S NONPAREIL GEM — A real good prospect for the spring yearling class next year. We had four heifers in this age group and are selling two of them. From a good cow we purchased from Britomac Farms in their 1963 production sale.

# Sangamon: Backed by Quality

The Sangamon area surrounding Springfield, Illinois, has been rich in Shorthorn history and tradition for one hundred years. It is and has been the home of many of the breed's great herds, past and present. Nowhere have there been greater stock bulls in service. The herds of this area, large and small, have benefited by the ready availability of this superior stock.

No area in the nation has been responsible for as many International grand champions as the Sangamon District . . . and that's a tradition that is enhanced with each year's show.

For the last 25 years a moving force in the promotion of Shorthorns through this region has been the Sangamon District Shorthorn Ass'n. There can be no more progressive group of breeders in the world. They know the value of owning great stock bulls . . . and they are willing to pay the price for them. They know the value of merchandising and supporting worthwhile breed projects everywhere. And, beyond that, there is no group more pleasant to deal with.

A spirit of friendly competition exists between these breeders. Each is proud . . . all strive to have the best . . . and this is what makes for progress in any area. They compete fiercely in the show ring . . . they cooperate 100 per cent with each other on projects for breed advancement.

While herds like Elmcrest, Leveldale, Connieland, Klockenga, Miller, Van Meter, Steiger, Land, Almy, Pin Oak to mention only a very few, all have an active schedule of their own, a focal point is the annual Sangamon District sale held each December at Elmcrest. Sangamon members have made this far more than a consignment sale because they have had a determination to make this one of the best sales of the breed. It is in essence a production sale of the tops produced in this region.

If you don't know them, you'll thoroughly enjoy working with these breeders. You'll look forward to attending their sales. You'll like the friendly atmosphere, the good cattle and the enthusiasm of the breeders. If you've ever attended a Sangamon sale you'll know what we mean. If you haven't, it's time you did.

# STANDARD GUARANTEE

Recommended by American Shorthorn Association

- A. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
- B. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
- C. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age, shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
- D. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of a freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
- E. In the event an animal is returned by the buyer to the seller as a non-breeder the buyer must furnish to the seller a veterinarian's certificate showing that his herd is healthy if such a certificate is required by the seller.
- F. All animals catalogued have been tested for T.B. and are clean, and have also passed a test for Brucellosis thirty days prior to the sale, or are accompanied by a Bangs Vaccination Certificate. Announcements will be made covering animals not clear from vaccination.
- G. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females showing names and record numbers of sire and dam, as well as service date.
- H. All prospective buyers should check health requirements of their states. Health certificates will be provided with each lot sold.
